Essentials of Fire Fighting and Fire  
Department Operations IFSTA

2012-12-30 This version includes all 21 chapters of Essentials of Fire Fighting, 6th Edition and adds three chapters written and validated to meet the emergency medical and hazardous materials requirements of NFPA® 1001, 2013 Edition. Chapter 22 specifically addresses the Firefighter I and Firefighter II knowledge and skills requirements for the emergency medical care competencies identified in NFPA® 1001, 2013 Edition Chapter 4. Chapters 23 and 24 meet the First Responder Awareness and Operations

Levels for Responders according to NFPA® 472: Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents, 2012 Edition and OSHA 1910.120. The chapters also provide validated content to meet Section 6.6, Mission-Specific Competencies: Product Control, of NFPA® 472. The hazardous materials information is adapted from the IFSTA Hazardous Materials for First Responders, 4th Edition.

**Essentials of Fire Fighting and Fire Department Operations** Carl Goodson  
2008 Market-leading text for Fire Fighter I and Firefighter II training. Completely updated to meet NFPA 1001 objectives, the new 5e has been redesigned offering both students and instructors the most comprehensive package available.

**Firefighting Operations in High-Rise and Standpipe-Equipped Buildings**  
David M. McGrail 2007 This book establishes a proper firefighting mindset and promotes maintaining preparedness for the extreme physical and mental demands of firefighting operations in high-rise and standpipe-equipped buildings ... Among the many valuable topics covered in this book are: standpipe system pressure regulating devices,

pressure restricting devices and pressure reducing valves; cautious and disciplined elevator use during high-rise operations; elevator rescue operations; proper engine company suppression selection, including techniques to operate more powerful firefighting weapons with limited manpower; air support operations during high-rise emergencies, with or without an internal resource.

**Employment Discrimination Law: Cases and Materials** Arthur B. Smith Jr. 2011-06-01 Changes in the area of employment discrimination law, since publication of earlier editions of this book, have refined many of the substantive doctrines and continued to clarify procedural issues. A number of relevant decisions have explored the scope of protection provided by the ADA, while others

have focused on the extent to which Title VII proscribes sexually harassing behavior. The new Seventh Edition of Employment Discrimination Law: Cases and Materials includes updated note material to include analyses and recent studies of labor market discrimination as well as cover recent judicial developments and the following main decisions issued since the Sixth Edition was published in 2006:

- Ricci v. DeStefano (Sup. Ct. 2009) concerning the right of an employer to postpone promotions based upon test results having a disparate impact and Lewis v. City of Chicago (Sup. Ct. 2010) dealing with the timeliness of challenges to the use of previously administered test scores which have a disparate impact on protected groups.
- Ledbetter v. Goodyear Tire & Rubber

Co. (Sup. Ct. 2007) pertaining to the timeliness of challenges to gender-based pay differentials and the 2009 Lilly Ledbetter Fair Pay Act reversing the impact of the prior Supreme Court decision. • In re Union Pacific RR Employment Practices Litigation (8th Cir. 2007) regarding the duty of employers to cover the cost of prescription contraceptives under the Pregnancy Discrimination Act amendments. • Crawford v. Metropolitan Government of Nashville (Sup. Ct. 2009) and Thompson v. North American Stainless (Sup. Ct. 2011) both dealing with the scope of the Title VII anti-retaliation proscription.

**Introduction to Fire Protection and Emergency Services** Robert Klinoff  
2013-12-02 Designed for use within courses based on the Fire and

Emergency Services in Higher Education (FESHE) Principles of Emergency Services model curriculum, this new Fifth Edition will prepare readers for a career in the fire or emergency services. Introduction to Fire Protection and Emergency Services provides an overview of the fire service, from history and culture to the basics of chemistry and physics, fire protection systems, and strategic and tactical considerations for wildland or structural fires. The Fifth Edition has also been updated to include new or expanded coverage of risk management, Next Generation (NG) 9-1-1, the U.S. Fire Problem from local and federal perspectives, wildfire issues and the impacts of global warming, and much more.

Legal Considerations for Fire and Emergency Services, 3rd Edition J. Curtis Varone 2014-09-05 The third edition of Legal Considerations for Fire & Emergency Services is a reader-friendly guide to the challenging legal issues that firefighters and emergency service personnel encounter. Written by J. Curtis Varone, a practicing attorney as well as an experienced firefighter, this book explores such key topics as fire department liability, search and seizure, sovereign immunity, overtime laws, collective bargaining, OSHA

compliance, workers' compensation, physical abilities testing, medical examinations, drug testing, discrimination, and sexual harassment. It is a perfect textbook for any course on fire service law as well as an indispensable desk reference for day-to-day fire department administration. Features of the new 3rd Edition: • Updated cases on several topics including residency requirements, employment discrimination, and more • Expanded treatment of hot topics such as digital imagery, social media, and electronic surveillance • Meets the latest requirements for FESHE's Legal Aspects of the Fire Service curriculum • Many new photos and graphics to help connect cases to day-to-day issues in the fire service • Coverage of recent changes to

search and seizure law, use of digital photos and social media by emergency personnel, and fire department liability

**Essentials of Firefighting** Beth Ann Fulgenzi 2008 This study guide may be used to supplement both the basic Essentials of Fire Fighting (5th edition) manual and the Essentials of Fire Fighting and Fire Department Operations (5th edition) manual. The questions contained in this study guide are intended to help students check their own learning progress as they read the book and advance through it or a training course. Questions are provided in a multiple-choice format because it is the most

common type of question format used in fire service testing processes. The heavy-duty wire binding allows the study guide to lay flat. The questions in each chapter are separated into Fire Fighter I and II sections so that students can focus on the level they are currently pursuing. The questions also reference the page where the relevant information may be found in the main manuals. The answers are listed in the back of the manual according to chapter and level.

*100 questions and answers for job interview Offshore Drilling Platforms*  
PETROGAV INTERNATIONAL This book offers you a brief, but very involved

look into the operations in the drilling of an oil & gas wells that will help you to be prepared for job interview at oil & gas companies. From start to finish, you'll see a general prognosis of the drilling process. If you are new to the oil & gas industry, you'll enjoy having a leg up with the knowledge of these processes. If you are a seasoned oil & gas person, you'll enjoy reading what you may or may not know in these pages. This course provides a non-technical overview of the phases, operations and terminology used on offshore drilling platforms. It is intended also for non-drilling

personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.
