**A Guidebook for
Developing and Sharing
Transit Bus Maintenance
Practices** John J.
Schiavone 2005-01-01

This report should be of interest to transit bus maintenance managers and others interested in the development of written transit bus maintenance procedures, or "practices," and the sharing of these practices with others in the transit industry. The report provides

guidance on how to develop effective transit bus maintenance practices tailored to one's local operating environment. It provides seven sample practices developed using the guidance. Complementing this report is an on-line Web Board sponsored by the Transportation Research Board's Committee on Transit Fleet Maintenance. This Web Board allows transit agencies to post their maintenance practices for others to review, revise as necessary for their own operating conditions, and use. The report provides instructions on how to access the Web Board, use it to develop maintenance practices, and share these practices among transit agencies.

lifestyle and community of vanlife through interviews, essential advice for living on the road, and more than 200 photos of tiny rolling homes. Inspired by the blog and Instagram account, Vanlife Diaries is an inspiring and detailed look into the world of the rolling homes built and occupied by a new generation of modern nomads: a range of professionals and creatives who have ditched conventional houses for the freedom of the road and the beauty of the outdoors. More than 200 photographs feature the vanlifers, their pets, and their converted vans and buses--VWs, Sprinters, Toyotas, and more--with the interiors uniquely customized and decorated for their work and hobbies, as well as the stunning natural locations that are the movement's inspiration.

Interviews and narrative captions share the stories of these nomads and how they decided to pursue vanlife, and provide practical tips and inspiration for downsizing, finding and converting your vehicle, and working and living on the road.
